

README_SETUP

Quick Setup Script - Creates all necessary files and directories

Instructions:

1. Open Command Prompt (cmd)
2. Navigate to: cd "c:-main-mainGaietak-portal"
3. Run: SETUP.bat

OR

1. Open PowerShell
2. Navigate to: cd "c:-main-mainGaietak-portal"
3. Run: powershell -ExecutionPolicy Bypass -File SETUP.ps1

The scripts will:
- Create payslips/ and documents/ directories
- Create the view files with full content
- Show success message

Manual Alternative:

If scripts don't work, use Windows Explorer:

1. Navigate to: c:-main-mainGaietak-portal
2. Create two new folders:
 - Right-click → New → Folder → Name it "payslips"
 - Right-click → New → Folder → Name it "documents"
3. Inside the "payslips" folder, create two new text files:
 - Right-click → New → Text Document → Rename to "index.php"
 - Right-click → New → Text Document → Rename to "show.php"
4. Copy the content from SETUP_INSTRUCTIONS.md:
 - Open SETUP_INSTRUCTIONS.md
 - Find section "PAYSLIPS INDEX VIEW"
 - Copy all the PHP code
 - Paste into payslips/index.php
 - Repeat for "PAYSLIPS SHOW VIEW" → payslips/show.php
5. Save files and test:
 - Visit <http://localhost:8080/payslips>

File Locations:

- SETUP.bat - Windows batch script (simple, no admin needed)
- SETUP.ps1 - PowerShell script (more advanced, extracts content automatically)

- SETUP_INSTRUCTIONS.md - Complete manual with all file contents

Choose whichever method works best for you!
